The Honorable Ann Aiken presiding

UNITED STATES CIRCUIT COURT

DISTRICT OF OREGON

13 DENNIS LOCK PRO SE,) Case No. 6-10CV-6079-AA
 15 Plaintiff,) EX PARTE
 17 vs.) PETITION FOR WRIT OF PROTECTION
 19 STATE OF CALIFORNIA ET AL,) CONSPIRACY
 21 Defendant) REQUEST FOR RECONSIDERATION AND
 23) DETAILS

25 Plaintiff prays to the court because of the blatant disregard California and
 27 six unknown agents have shown contempt for every aspect of the legal process
 29 that a democracy is dependant such processes are the core of what the
 31 constitution was designed to protect, as stated in complaint plaintiff can
 33 only anticipate a growing effort to conceal their nefarious seditious and
 35 treasonous activities through activities that only a miscreant mind familiar
 37 with the law could produce but possibly include planting evidence or
 39 falsifying drug tests and claiming these are self fulfilling prophesies.

41 Above is the opening paragraph of the initial request for protection. If we
 43 take into consideration the original action is practically *prima fascia* and
 45 since the original filing of this action two more actions have been filed
 47 that fully support the original contention (both actions practically, *prima
 49 fascia*) of plaintiff that the government is framing plaintiff for holding

1 anti fascist government views and his effort to expose and stop over 39 years
2 of civil rights violations of homeless and himself.

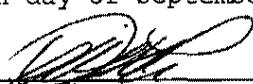

3 Plaintiff also sates he believes since having moved to Oregon the 6 Unknowns
5 have used Hare Krishna's, David Minor, Bhakta Ron and Nandadulal Das with
7 miscaptioned photos easily deceiving until brought to court and David Gerber,
9 publisher of The Vagabond newspaper here in Eugene to manufacture evidence
11 and have intimidated attorneys, including Brian Williams and Saint Vincent De
13 Paul and Eugene Mission personnel, Terry McDonnell and Richard Savage because
15 they are dependent and extort able by threat to withdraw funding. Apparently
17 the whole federal informant phalanx is in play in the form of a 'Rainbow safe
19 house' converted by the Feds into a Sting and manufacture evidence
21 contrivance. It is doubtful this has all gone into play just like in
23 California (setting scenarios to get information they have done 50 times
25 before all while knowing the answer at the beginning because they are just
27 making up the investigation to harass) showing a common author with a common
29 purpose that are violations of civil rights to the point of sedition without
31 these protracted efforts going to fruition and this demands a protective
33 order to guarantee the interest of justice. If we allow this travesty of
35 justice then we had better just hoist the swastika over the D.C. Capitol
37 building and await the terrible judgment of God Almighty

37 THEREFORE: In the name of the Almighty God, who speaks the destiny of America
39 and Democracy which depends upon unpolluted courts for its very existence,
41 plaintiff prays to the court to reveal the details of the courts thinking
43 that would indicate why California and 6 Unknown Agents would not continue
45 even more unbridled until some kind of sadistic neo Nazi atrocity is
47 perpetrated since they must feel some sense of arrogance from deceiving so
49 many people again and apparently even the courts.

1
3 And reconsider the issuance of the orders to be implemented as the only just
5 American, Democratic course of action and begin to put out Country back on
7 the Constitution.

9 Also plaintiff prays the court to ignore the poor form of a brain damaged pro
11 se advocate and address the substance of this issue.
